

Fill The Balloon

Material:

- Recycled Water Bottle
- 1/3 White Vinegar
- Baking Soda
- Balloon
- Funnel

Objective: Explorers will learn how to inflate a balloon without helium

Lesson:

- Give each child a recycled water bottle
- Fill bottle 1/3rd of the way with white vinegar
- Set this to the side and use the funnel and balloon

JUNGLE ISLAND

- Place the funnel into the balloon
- Begin to fill the balloon up with the baking soda (*Make sure the balloon is roughly ½ way filled*)
- Carefully place the balloon on top of the bottle making sure no baking soda falls in until fully on
- Once the balloon is on, turn it completely upside down and let baking soda fall into bottle
- Have one child hold the balloon as it begins to inflate and observe the reaction
- When finished, tie balloon

(After cleaning up, kids can try to play the game keep it up. If not, pop balloons and dispose in trash.)

***DO NOT LEAVE THESE BALLOONS OUTSIDE.
ANIMALS CAN INGEST THIS AND IT IS HARMFUL TO
THEM***

Jungle Island invites kids and their families to join its veterinarian, Dr. Jason Chatfield, for his weekly #ChatswithChatfield livestreams via Facebook Live at 3:30 p.m. every Wednesday.
